GENERATIVE AI IN SEQUENCING: ENHANCING MODELS BY SYNTHETIC OMICS DATA

Giuseppe Jurman
Fondazione Bruno Kessler – FBK (Trento, Italy)

The Series

The AI&Health seminar series, hosted by the Working Group on Artificial Intelligence for Healthcare, gathers researchers from academia, industry and medical centers for presenting, discussing and spreading the latest research results and ongoing works related to the application and impact of Artificial Intelligence in the healthcare domain, to the larger extent. Seminars will be online streamed and open access. Details are available at <https://aixia.it/gruppi/hc/>.

2024 September 16 - 4:30 PM (CET)
