# FBK Open Facility Day

The big European projects and the Open model for and with companies

At the conclusion of the first “important project of common European interest” to support research and innovation in **microelectronics** (IPCEI-ME), FBK has organized a meeting dedicated to **companies** and its **stakeholders** to share the steps that have led it to an **unprecedented expansion of its facilities**, which has given way to interesting **new models of development and innovation for and with companies**. This will also be an opportunity to introduce the **roadmap of the new IPCEI-ME/CT** in the context of the **Chips Act**, with an overview of research achievements and future prospects, through the discovery of the strengths of the **new FBK Clean Rooms**, a recount of the technologies developed, and the proposal of the **“FBK Open Facility” model**.

The format of the event is experiential: after the presentation of the results of IPCEI-ME, rapid Fire Talks that tell real case histories and FBK's technological skills.

In the afternoon, there will be space for B2B meetings and visits to the Clean Rooms.

10.00 a.m. Registration and welcome coffee

10.30 a.m. Institutional greetings

10.55 a.m. Talk by an IPCEI ME/CT Facilitation Group member

11.10 a.m. Talk by a Confindustria Trento representative

11.2 a.m. From vision to innovation: a journey through the Open Facility,  
iPCEI and Chips Act projects

11.40 a.m. The IPCEI ME@FBK project, main results

12.00 p.m. Rapid Fire Talks

1.30 p.m. Lunch

2.00 p.m. Facility tour

2.30 p.m. B2B with “Rapid fire” speakers

5.30 p.m. Event Closure
